FordGrand C-MAX

Feel the difference

Do a lot more

The new Ford Grand C-MAX has practicality in its DNA. With dual sliding rear doors and seven seats, it helps you get the most out of family life.

Model shown is the Grand C-MAX Titanium in Dark Micastone (Option).

Fit a lot in

Grand C-MAX's spacious and versatile interior is packed with innovative features. The centre second row seat can be neatly stowed away to allow easy walkthrough to the third row seats. Power child locks on the sliding doors, and seat belt reminders on all rear seats help ensure your family stays secure.

Model shown is the Grand C-MAX with optional rear-view camera.

Go a lot further

Ford Technologies give the C-MAX better fuel economy than you would expect from such a spacious car. Whether it's PowerShift transmission or Duratorq TDCi advanced diesel engines, they all help you go a lot further between fill-ups.

Model shown is the Grand C-MAX Titanium in Dark Micastone (Option) with Hill Start Assist (HSA).

Sliding rear doors (Grand C-MAX)

Designed to open and close smoothly with one hand, the sliding doors make life much easier. Getting small children in and out requires less effort, while tight spaces and concrete pillars in car parks are no longer a problem.

The new Ford C-MAX has some of the most advanced technology you can find on a multi-activity vehicle. Here are a few of the insightful features that can make every journey safer and easier.

Discover a lot extra

Active Park Assist

Ultrasonic sensors confirm whether a gap is large enough to park in, and then operate the steering while you control the pedals. (Option)

Power tailgate

Can be opened with the tailgate handle, key fob or from the front seats. It will automatically stop opening if it senses an object in the way. (Option)

Blind Spot Information System

This high-tech visual aid is designed to make longer journeys a far more relaxing experience. As another vehicle – a car, van or lorry enters your blind spot, it alerts you with a discreet warning light built into the driver's and passenger's door mirrors. (Option)

Second and third row seat belt reminder system (Grand C-MAX)

To ensure the safety of your second and third row passengers, visual and audible warnings alert you if they forget to fasten their seat belts. (Standard)

Choose your C-MAX

The C-MAX is a spacious five-seater, while the larger Grand C-MAX has seven seats and dual sliding rear doors.

C-MAX & Grand C-MAX ACTIV

- ABS (Anti-Lock Braking System)
- Electronic Stability Programme (ESP)
- Curtain Airbags
- Bluetooth with V/C

*In 4th gear. ⁹⁸Ford test figures. ⁹⁹The declared fuel consumptions and CO₂ emissions are measured according to the technical requirements and specifications of European Directive 80/1268/EEC or the European Regulation (EC) 715/2007 amended by (EC) 692/2008. Fuel consumption and CO₂ emissions are specified for a vehicle type and not for a single car. The applied standard test procedure enables to compare between different vehicle types and different manufacturers. This information is not part of any product offer made. Real world fuel consumption can vary as the fuel efficiency of a vehicle is influenced by (individual) car configurations, driving behaviour, use of technical equipment such as air conditioning, as well as other non-technical factors. **DPF** = Diesel Particulate Filter. All petrol engines are equipped with a catalytic converter.
